Description

Located at the gateway to the Sea of Cortez, Maresía is a three-level residential building, crowned by a fourth level dedicated to shared amenities, where views open toward both the ocean and the city. Twelve residences share a unified layout, designed to be lived in with clarity, order and coherence. Access is direct from the underground parking level to the door of each condominium eliminating interior corridors that interrupt the experience. The architecture prioritizes privacy, functionality and spatial continuity, integrating common areas meant to be enjoyed at a relaxed pace, with services that quietly support everyday life.
